Our Business is...

Shrink Sleeve Labelers & Tunnels

Shrink Sleeve Labelers - Tamper evident or full body labeling.

Shrink Tunnels - Radiant and steam tunnel models.

Product Inspection

Checkweighers - Inline dynamic weight inspection.

Metal Detectors - Inline dynamic inspection for metal contaminants.

X-Ray Systems - Inline technology for inspection of hard-to-detect foreign objects and contaminants.

Vision Systems - Label inspection, interrogation and confirmation.

Case Erectors, Tapers, Sealers & Decasers

Case Erectors - Automatic and semi-automatic models; PS tape or hot melt glue closure options.

Case Sealers - Automatic and semi-automatic. Bottom, side, top-and-bottom belt driven designs. Tape or glue closure.

Decasers - Remove empty glass, plastic and paper containers from cases.

Pallet Equipment

Palletizers - Low or high-level infeed. Semi-automatic or automatic. Designed for cases, trays or bags.

Depalletizers - High or low level configurations.

Pallet Wrappers - Rotary ring, conveyORIZED turntable and conveyORIZED rotary arm models available.

Visit cal-pak.com
for a complete list of the equipment we offer.

Your End of Line.

Labeling Systems

Stand Alone - Stepper or servo driven solutions apply pre-printed labels onto products of all shapes and sizes.

Inline Labelers - Available in front/back, top/bottom, wrap or custom configurations.

Print & Apply - Available in various applications: simple tamp, corner wrap, adjacent panel and pallet applicators.

Custom Print & Apply - Models include pail and drum labeling, bottom labeling, front/back and wraparound labeling.

Automatic L-Sealers & Shrink Bundlers

L-Sealers - Fully-automatic models available.

Bundlers - Standalone or fully integrated with product accumulating systems. Single roll and dual roll bundlers available.

Induction Cap Sealers

Sealing Systems -

Induction capping systems for glass and plastic containers.

Cartoners, Sleevers, Case & Tray Packers

Cartoners & Sleevers - Continuous or intermittent motion.

Case Packers - Models include wraparound, top-load, end-load, bottom-load and drop pack designs.

Tray Shrink Packers - Single and multi-lane designs.

Tray Packers - Side, end or top load.
